A.9 Describe the terms and conditions of any mandate(s) conferred upon the Board of Directors by the General Shareholders' Meeting to issue, repurchase or transfer treasury stock.

The General Shareholders' Meeting of the Company, at its meeting on 28 March 2015, agreed to expressly authorise the Board of Directors to acquire TALGO, S.A. shares in the secondary market, in accordance with the provisions of the Capital Companies Act, under the following terms:

- a) Authorise the Board of Directors, in accordance with the provisions of Article 146 et seq of the Capital Companies Act, so that it may proceed to acquire the Company's own shares in the secondary market, by any means, either directly or through companies that it controls, subject to the following limits and requirements:
- The shares may be acquired by purchasing them directly or by any other *inter vivo* act in exchange for consideration.
 - The maximum number of shares acquired, in addition to those already held by the Company and any of its subsidiaries, shall not exceed ten per cent (10%) of the Company's total share capital.
 - The shares acquired shall be free from all charges and encumbrances, fully paid up and not linked to the fulfilment of any obligations.
 - The minimum acquisition price of the shares shall not be lower than their nominal value; and the maximum price shall not exceed the share price share fixed for the purposes of the share sale offer prior to the admission of the Company's shares onto the Stock Exchange for trading, if the acquisition is made during the period for placing the shares, or more than one hundred and

- twenty per cent (120%) of the market value of the shares on the corresponding date, if the acquisition is made subsequently.
- Duration of the authorisation: five (5) years, starting from the date the authorisation was approved.

b) Authorise the Board of Directors so that it may designate, in whole or in part, the own shares acquired to the execution of remuneration programs, be they already established or established in the future, which are intended to involve or do actually involve the delivery of shares or rights over share options, or are based in any way on the evolution of the market price of the share, in accordance with the provisions of Article 146.1.a) of the Capital Companies Act. This authorisation for the acquisition of own shares shall be effective from the date that the Company's shares are admitted for trading on the Stock Exchanges of Madrid, Barcelona, Bilbao and Valencia.

C.1.5 Explain the measures that have been adopted, where applicable, that seek to include a number of women on the Board of Directors so as to enable a balanced representation of women and men.

Measures explanation

The Company's Appointments and Remuneration Committee has agreed to search for a female candidate and to propose to the Board of Directors that a female be appointed as a Director to cover the next vacant post that arises on that body.

The Committee considers that it would be desirable to increase the number of women sitting on the Board of Directors and it believes that the ideal profile would be a woman with technical training and experience in the business area in which the Company specialises - namely, the manufacture and/or maintenance of trains.

C1.6 Explain the measures that the Appointments Committee has agreed, where applicable, to ensure that the Company's selection procedures are not implicitly biased against the selection of female Directors, and that the Company deliberately seeks out and includes women on the list of potential candidates when they fulfil the professional profile sought:

Measures explanation

At its meeting on 28 March 2015, the General Shareholders' Meeting agreed to appoint a female External Independent Director for a period of four (4) years. The Appointments and

Remuneration Committee has established a series of guidelines to be followed in future Director selection processes, to ensure compliance with the criteria of gender diversity, as established by the Company in its Rules of the Board.

When, despite the measures that have been adopted, where applicable, the number of female Directors is scarce or non-existent, explain the reasons to justify this:

Reasons explanation

The Appointments and Remuneration Committee has set a series of guidelines to follow in the selection processes of Future Directors by ensuring compliance with the criterion of gender diversity, as established by the Company In its Regulations of the Board of Directors.

C.1.6.bis Explain the conclusions drawn by the Appointments Committee regarding the verification of compliance with the selection policy for Directors. And in particular, about whether this policy is promoting the objective that the number of female Directors should represent, at least, 30% of the total number of Board members by 2020.

Conclusions explanation

The Appointments and Remuneration Committee continues and is in the process of selecting female Directors to cover future vacancies.

C.1.7 Explain how the shareholders who hold significant stakes are represented on the Board.

Mr Javier Bañón Treviño was appointed as a Director of PEGASO TRANSPORTATION INTERNATIONAL, S.C.A. on 28 March 2015.

Mr José M^a Muñoz Domínguez was appointed as a Director of MCH IBERIAN CAPITAL FUND III, F.C.R. y MCH INVERSIONES INDUSTRIALES, S.A.R.L. on 28 March 2015.

C.1.19 Indicate the procedures for selecting, appointing, re-electing, evaluating and removing Directors. List the competent bodies, the procedures followed and the criteria used for each procedure.

1.-APPOINTMENT OF DIRECTORS

The General Shareholders' Meeting is responsible for appointing, electing and removing Directors. Nevertheless, the Board may cover any vacancies that arise, through the co- optation procedure, on a temporary basis, until the next General Shareholders' Meeting is held.

The following persons may not be appointed as Directors, including, where appropriate, individual representatives of legal entity Directors:

- Domestic or foreign companies, whose significant shareholder, directly or indirectly, holds a stake, directly or indirectly, in a company that operates in the railway sector or in other sectors in which the Company competes, as well as any of their administrators or senior management and people who, where applicable, were proposed by them in their capacity as shareholders.
- Persons who, in the two (2) years preceding their possible appointment, have held senior management roles in government that are incompatible with the performance of their functions as a Director of a listed company, in accordance with regional or state law, or persons who have held roles of responsibility in one of the sectors in which the company undertakes its activity.

- Persons or legal entities who are subject to any other rules of incompatibility or prohibition, as governed by the general rules, including those who have interests that are in any way opposed to those of the Company or those of any one of the Group's companies.
- The Board of Directors - and the Appointments and Remuneration Committee, within the scope of its responsibilities - shall endeavour to ensure that the proposals for candidates that it submits to the General Shareholders' Meeting for appointment or re-election as Directors, and the appointments that it makes directly to cover vacancies in the exercise of its co-optation duties, involve respectable and appropriate people, who have recognised solvency, competence, experience, qualifications, training, availability and commitment for the role. It shall endeavour to ensure, as well, that the candidate selection process results in a well balanced Board of Directors, as diversity enriches decision making and allows multiple points of view to be shared during discussions of matters under its remit.
- In the case of legal entity Directors, the individual person who represents an entity in the exercise of the functions inherent to the role of Director shall be subject to the same requirements indicated in the paragraph above. The incompatibilities and duties established for the Board in the Company Bylaws and in the Rules of the Board shall be equally applicable to the individual person representing the legal entity.

2.- RE-ELECTION OF DIRECTORS

Proposals for the re-election of Directors that the Board of Directors decides to submit to the General Shareholders' Meeting must be subject to a process of elaboration of which a proposal will necessarily be part (in the case of Independent Directors) or a report (in the case Of the other Directors) issued by the Appointments and Remuneration Committee, which will evaluate the quality of the work and the dedication to the position of the Directors proposed during the previous term, as well as, expressly, the honorability, suitability, solvency, competence, availability and commitment to their role.

In any case, the ratification and re-election of the Directors must comply with the provisions of the law and the Corporate Governance System Rules of the company.

3.- EVALUATION OF DIRECTORS

Article 21.8 of the Rules of the Board establishes an annual action plan, which requires the Board of Director to evaluate its own operation and the quality and efficiency of its work, as well as that of the different Committees and, to propose, on the basis of the results, an action plan to correct any deficiencies detected, recording the results of that evaluation in the minutes of the meeting and incorporating them as an annex; as well as on the basis of the previous report from the Appointments and Remuneration Committee, the review and evaluation on an annual basis of the work performed by the Chairman of the Board in his capacity as such and, where applicable, the work performed by the Managing Director and CEO of the Company, as well as of the work performed by the different committees. During the discussion between the Board of Directors about the work of the Chairman in his capacity as such and, where applicable, the Managing Director and CEO of the Company, the person being discussed may not be present and so the Vice-President of the Board of Directors and, in his absence, the Director appointed for that purpose by the Board of Directors, should lead the debates, in accordance with the provisions of the Rules of the Board.

4.- REMOVAL OF DIRECTORS

The Directors shall leave office when the period of which they are appointed has elapsed or when so decided by the General Shareholders' Meeting in its exercise of the power assigned to it.

The term of office shall be four (4) years from the date of acceptance.

The Board of Directors shall not propose the removal of any Independent Director before the end of his term in office, unless the Board of Directors identify just cause to do so, following a report from the Appointments and Remuneration Committee.

In any case, the Appointments and Remuneration Committee shall report to the Board of Directors about proposed removals due to any breach of duties inherent to the role of Director or if a Director is involved in any activity that warrants his resignation or the mandatory termination of his appointment.

C.1.20 Explain the extent to which the annual evaluation of the Board has prompted significant changes in its internal organisation and the procedures applicable to its activities:

Modifications description

The Board of Directors has implemented an evaluation system for monitoring the work of each Director individually and the board in a collective way that will improve its activity and its evaluation. During the financial year 2016 no deficiencies have been detected that have given rise to aspects of improvement, having been evaluated satisfactorily.

C.1.20.bis Describe the evaluation process and the areas evaluated by the assistant to the Board of Directors, where applicable, by an external consultant, regarding the diversity of its composition and duties; the operation and composition of its committees; the performance of the Chairman of the Board of Directors and of the CEO of the Company; and the performance and contribution made by each Director.

C.1.20.ter Where applicable, disclose the business relationships that the consultant or any one of the group's companies holds with the Company or with any company in the group.

C.1.21 Indicate the cases in which Directors must resign.

Directors must submit their resignation to the Board of Directors and formally resign in the following cases:

- (i) When, due to supervening circumstances, they are involved in any of the cases of incompatibility or prohibition established in the general provisions of the Company Bylaws or the Rules of the Board.
- (ii) When an act or conduct attributable to the Director has caused serious harm to the corporate assets or reputation of the Company or a risk arises of criminal liability for the Company.
- (iii) When they lose the reputation, capability, solvency, competence, availability or commitment to their duties necessary to be a Director of the Company.
- (iv) When their continuation on the Board of Directors may jeopardise, for any reason, and directly, indirectly or through any persons related to them (according to the definition of that term contained in the Rules of the Board), the loyal and diligent performance of their duties in accordance with the corporate interest.
- (v) When the reasons for which they were appointed cease to exist and, in particular, in the case of Proprietary Directors, when the shareholders who they represent sells some or all of their shareholdings with the consequent loss of the shareholders' significant or sufficient stake to justify the appointment. The number of Proprietary Directors proposed by a shareholder should decrease in proportion to the reduction in the stake in the Company's share capital.
- (vi) When, for any reason, an Independent Director becomes involved in any of the prohibiting circumstances set forth in Article 8.5 of the Rules of the Board.
- (vii) When the Director reaches 73 years of age.

In any of the cases described in the preceding paragraphs, the Board of Directors shall require the Director to resign from office and, where applicable, shall propose his removal at the General Shareholders' Meeting.

By way of exception, the above shall not apply in the event of the resignations set forth in paragraphs (v) and (vi) above, when the Board of Directors considers that reasons exist to justify the continuation of the Director in office, following a report from the Appointments and Remuneration Committee, without prejudice to the effect that the new supervening circumstances may have on the classification of the Director.

In the event that an individual person who represents a legal entity Director finds himself involved in any of the cases described above, he shall be disqualified from exercising such representation.

C.1.34 Paragraph repealed.

C.1.35 In the event that they exist, indicate the specific mechanisms established by the Company to preserve the independence of the external auditors, financial analysts, investment banks and ratings agencies.

In accordance with the provisions of the Rules of the Board regarding the powers of the Audit Committee, it is responsible for:

- (a) Presenting proposals to the Board of Directors for submission to the General Shareholders' Meeting regarding the selection, appointment, re-election, evaluation and removal of the external auditors, as well as the conditions for their engagement.
- (b) Receiving regular information from the external auditor about the audit plan and the results of its implementation, and verifying that senior management take their recommendations into account.
- (c) Ensuring the independence of the external auditor and, to that end:
 - Ensuring that the remuneration of the external auditor for its work does not compromise its quality or independence.
 - Ensuring that the Company notifies the National Securities Market Commission about any change in the auditors as a significant event, and that it accompanies its report with a declaration regarding the potential existence of disagreements with the outgoing auditor and, if they exist, their contents.
 - Ensuring that the Company and the external auditor adhere to current legislation regarding the provision of non-audit services, the limits in terms of the concentration of the external auditor's business and, in general, the other rules established to ensure the independence of the auditors.
 - In the event that the external auditor resigns, examining the circumstances that have caused it.
- (d) Establishing the appropriate relationships with the auditors or audit firms so as to receive information regarding those questions that may pose a risk to their independence, for consideration by the Audit Committee, as well as any other matters relating to the process to audit the accounts, as well as any other communications provided for in the audit legislation and auditing standards. In any case, they must receive a declaration of independence from the auditors on an annual basis regarding the Company and the companies related to it, directly or indirectly, as well as

information about the additional services rendered, of any kind, and the corresponding fees received from those companies by the external auditors or by people or entities linked to them, in accordance with the provisions of the legislation governing audits. Ensuring that the external auditor holds at least one meeting per year with the full Board of Directors to inform it about the work performed and about the evolution of the accounting environment and the risks facing the Company.

- (e) Issuing an annual report, prior to the issue of the audit report, in which it expresses an opinion about the independence of the auditors or the audit firms. This report should comment, in all cases, about the provision of additional services to those described in the paragraph above, considered both individually and as a whole, besides the statutory audit and regarding the framework of independence or audit regulations.
- (f) Where appropriate, encouraging the auditor of the group to take responsibility for the audits of the companies that comprise it.

C.1.36 Indicate whether the Company has changed its external auditor during the year. If so, identify the outgoing and incoming auditors:

C.1.40 Indicate whether a procedure exists whereby the Directors can receive external advice and provide details, where applicable:

Yes No

Detail of the procedure

In accordance with the provisions of Article 27 of the Rules of the Board, and with the aim of being supported in the performance of their duties, External Directors may request the engagement of advisors and experts, at the expense of the Company. Their requests should relate to specific problems that carry certain importance or complexity.

The decision to engage those services must be communicated to the Chairman and shall be implemented through the Secretary to the Board of Directors, except in the cases in which the Board considers the advice to be unnecessary or inappropriate.

The Company shall establish an orientation program to provide new Directors with rapid and sufficient knowledge about the Company, as well as about its corporate governance rules. It shall also offer the Directors knowledge refresher programs when the circumstances so warrant it.

Furthermore, Article 25.6(iv)2 of the same Rules establishes that the Audit Committee may engage the services of external advisors, at the expense of the Company, to perform its functions, when it deems appropriate. And in the same vein, Article 26(iv) 2 establishes that the Appointments and Remuneration Committee may also engage the services of external advisors, at the expense of the Company, to perform its functions, when it deems appropriate.

C.1.41 Indicate whether there are procedures in place for the Directors to receive the information they need in sufficient time to prepare for meetings of the governing bodies and, where applicable, provide details:

Yes **X** No

Details of the procedure

Directors have access to a specific software application that facilitates the performance of their duties and the exercise of their right to information. The necessary and appropriate information required for the preparation of Board meetings is included in this application, in accordance with the meeting agenda specified in the meeting notices, along with the material and presentations relating to them.

C.1.42 Indicate and where appropriate, provide details as to whether the Company has established rules that oblige the Directors to report and, where applicable, resign in cases that may harm the Company's credibility and reputation:

Yes **X** No

Explain the rules

In accordance with the provisions of Article 14.3 of the Rules of the Board, Directors must tender their resignation to the Board of Directors and formally resign in the following cases:

- When an act or conduct attributable to the Director has caused serious harm to the corporate assets or reputation of the Company or a risk arises of criminal liability for the Company.
- When they lose the reputation, capability, solvency, competence, availability or commitment to their duties necessary to be a Director of the Company.

C.1.43 Indicate whether any members of the Board have notified the Company that they have been indicted or tried for any of the crimes stated in Article 213 of the Capital Companies Act:

Yes No **X**

Indicate whether the Board has examined this matter. If so, provide a justified explanation of the decision taken as to whether or not to allow the Director to continue to hold office or, where applicable, state the actions taken or to be taken by the Board up until the date of this report.

C.1.44 List the significant agreements entered into by the Company, which would come into force, be modified or terminate in the event of a change in control of the Company as the result of a takeover bid, and their effects.

Some of the loans and other agreements signed between Talgo, S.A. and/or its subsidiaries and financial institutions may be susceptible to early repayment or may require additional guarantees in the event of a change of control. Together, they amount to approximately 139 million euro.

C.1.45 Identify in aggregate terms, and describe in detail, any agreements between the Company and its Directors, executives and employees that provide indemnities, or guarantee or protective clauses, in the event of resignation, unfair dismissal or termination as a result of a takeover bid or other type of operation.

Number of beneficiaries: 2

Type of beneficiary: Executive Directors

Agreement description: Executive Directors have right to a compensation equal to twelve months of salary in case of improper dismissal.

- m) Examine compliance with internal regulations and corporate governance rules and make proposals necessary for its improvement.
- n) In relation to transactions with related parties or involving, or likely to involve, conflicts of interest, informing and taking decisions for their approval or rejection, and requesting the reports of independent experts that might correspond to the Valuation of the same.
- o) On the occasion of the appointment, ratification or re-election of Directors, it shall prepare a report describing the result of the prior analysis of the needs of the board of directors to be published when convening the general meeting of shareholders to which ratification is submitted, Appointment or re-election of each Director.
- p) Ensure that non-executive Directors have sufficient time available for the proper performance of their duties.

2.- PROCEDURES, RULES OF ORGANIZATION AND OPERATION:

The Board of Directors shall establish a permanent Appointments and Remuneration Committee composed of between three (3) and five (5) members, who shall be external Directors.

At least two (2) Independent Directors shall form part of the Appointments and Remuneration Committee.

The Chairman of the Appointments and Remuneration Committee will be appointed from among the Independent Directors who are part of it.

The appointment of members of the Appointments and Remuneration Committee, as well as the appointment of its Chairman and Secretary, shall be made by the Board of Directors by an absolute majority. Its renewal will be made in the time, form and number decided by the Board of Directors of the Company.

The Secretary of the Appointments and Remuneration Committee may be one of its members or the Secretary or Deputy Secretary of the Board of Directors. In the latter case, the Secretary may not be a member of the Appointments and Remuneration Committee.

The Appointments and Remuneration Committee shall meet as often as necessary, in the opinion of its Chairman, for the exercise of its powers.

Shall meet when requested by at least two (2) of its members. The Chairman of the Board of Directors and the Managing Director may request informational meetings of the Appointment and Remuneration Committee, on an exceptional basis.

Notwithstanding the foregoing, the Appointments and Remuneration Committee shall meet whenever the Board of Directors requests the issuance of a report or the approval of proposals within the scope of its powers and whenever, in the opinion of the Chairman of this committee, it results convenient for the proper development of its purposes.

The Appointments and Remuneration Committee shall be validly constituted when the majority of its members attend the meeting, present or represented.

The resolutions shall be adopted by an absolute majority of the concurrent Directors (present or represented) to the

Session, being the vote of the President in case of a tie in the vote.

Any Board Member of the Company may also request that the Appointments and Remuneration Committee take into consideration, due to its suitability, potential candidates to fill vacancies as a Director.

Explain the duties assigned to this committee, describe the procedures and rules for its organisation and operation, and summarise the most important actions that it has carried out during the year.

This committee was created in May 2016 under the provisions of Article 23.3 of the Regulations of the Board of Directors and is governed by the same with respect to: the appointment of its members, the appointment of its Chairman and Secretary and their functioning -and, in particular, with regard to the convening of the meetings, delegation of representation through another member of the relevant committee, incorporation, non-convened meetings, holding of a meeting, system for adopting resolutions, voting in writing and without a session ("por escrito y sin session") and approval of the minutes of the meetings available for the members of the Board of Directors.

The functions of this Committee are consultative and shall act duly coordinated in order to safeguard the company's interest, contributing towards the good corporate governance of the Company, according to what is established in the bylaws and in the Regulations of the Board of Directors.

The Strategy Committee is an internal committee of Talgo and pursues its activity under the direct indications of the Chairman of the Board of Directors and of the Chief Executive Officer of the company that, furthermore, will be members of it. This Committee will:

- (i) support the Board of Directors in the coordination and organization of Talgo's strategy through the dissemination, implementation and monitoring of the general strategy.
- (ii) provide information and managing services with regard to the supervision and monitoring services as well as to the planning of the business strategy, which shall be determined by the Board of Directors of the Company and executed and boosted by its Chairman and its Chief Executive Officer, thereby enabling the development of the business strategy of Talgo.

C.2.4 Paragraph repealed.

C.2.5 Indicate, if applicable, whether there are any regulations governing the Board committees. If so, indicate where they are made available for consultation and whether any amendments have been made to them during the year. In turn, indicate whether an annual report has been prepared voluntarily about the activities of each committee.

The Audit Committee and the Appointments and Remuneration Committee are governed by specific regulations, which are included within the Rules of the Board and which are made available to interested parties on the Company's website: www.talgo.com

C.2.6 Paragraph repealed.

D**RELATED PARTY TRANSACTIONS AND INTRA-GROUP OPERATIONS**

D.1 Explain, if applicable, the procedure for approving related party and intra-group transactions.

Procedures for communicating the approval of RPTs

Article 40 of the Rules of the Board establishes that:

The Board of Directors shall be made aware of the transactions that the Company undertakes, directly or indirectly, with Directors, significant shareholders or representatives of the Board or with persons related to them. The performance of such operations or transactions shall require the authorisation of the Board of Directors, following a favourable report from the Appointments and Remuneration Committee, which must be approved with a favourable vote of, at least, eighty per cent (80%) of the Directors, present or represented, at that meeting.

The Directors affected by the aforementioned operations must not exercise or delegate their right to vote, nor may they be present in the meeting room whilst the Board of Directors discusses and votes in this regard.

Nevertheless, the authorisation established in the previous paragraph shall not be necessary when dealing with operations that simultaneously fulfil the following three conditions:

- (i) When they are undertaken by virtue of contracts whose terms and conditions are fundamentally standardised and reflect those usually applied to clients contracting the type of product or service involved.
- (ii) When they are undertaken at general prices or tariffs established by whoever acts as the supplier of the good or service involved or when the operations relate to goods or services for which no established tariffs exist, under normal market conditions, similar to those applied in commercial relationships with clients that have similar characteristics.
- (iii) The amount does not exceed one per cent (1%) of the Company's annual revenues.

If these conditions are fulfilled, the affected Directors shall not be obliged to report such operations or obtain authorisation in advance from the Board.

The aforementioned operations shall be valued from the point of view of equal treatment and market conditions, and shall be reflected in the Annual Corporate Governance Report, and in the information that is regularly disclosed under the terms established in the applicable legislation.

On an exceptional basis, when reasons of urgency so require it, related party transactions may be authorised, where applicable, by the Executive Committee, and then subsequently ratified by the Board of Directors.

D.2 List any significant transactions, by virtue of their amount or importance, between the Company or its group of companies, and the Company's significant shareholders:

D.3 List any significant transactions, by virtue of their amount or importance, between the Company or its group of companies, and the Company's Directors or executives:

D.4 List any significant transactions undertaken by the Company with other companies in its group that are not eliminated in the process to prepare the consolidated financial statements and whose subject matter and terms set them apart from the Company's ordinary trading activity.

In all cases, list any intra-group transactions carried out with entities established in countries or territories that are considered to be tax havens

D.5 Indicate the amounts of any transactions carried out with other related parties.

Zero

D.6 List the mechanisms established to detect, determine and resolve any possible conflicts of interest between the Company and/or its group and its Directors, executives or significant shareholders.

Article 31 of the Rules of the Board establishes that Directors shall hold office with the loyalty of a faithful representative, acting in good faith and in the best corporate interest of the Company. To this end, Directors must comply with the obligations imposed by the law and, in particular, shall be subject to the following obligations and prohibitions, amongst others:

- (i) Directors may not undertake, for their own benefit or for the benefit of persons related to them, investments or operations linked to the assets of the Company about which they have become aware as a result of the performance of their role, when those operations have been offered to the Company, nor may they make use of company assets, including confidential information about the Company, for private purposes, or take advantage of the Company's own business opportunities.
- (ii) No Director, or any person related to him, may undertake activities for his own benefit or for the benefit of others that involve effective competition, be it actual or potential, with the Company or that, in any other way, places him in a position of permanent conflict with the interests of the Company.
Similarly, Directors may not hold office or render any services to any companies that compete with the Company or any of its subsidiaries, or any that have the same, similar or complementary activity to the Company's own corporate purpose, unless expressly authorised to do so by the Company, by resolution at the General Shareholders' Meeting.
- (iii) Directors should refrain from participating in discussions and votes about agreements and decisions in which they or any of their related parties have a conflict of interest, be it direct or indirect, except those agreements or decisions that affect him in his capacity as an administrator, such as his appointment or removal for positions on the Board of Directors or others of similar significance.

- (iv) Directors should report to the Board of Directors any situations involving conflicts of interest, be they direct or indirect, with the interests of the Company. In the case of conflict, the affected Director should refrain from participating in the operation to which the conflict relates.

The Company's Board of Directors approved the Code of Conduct for the Securities Market in which a compliance unit was created and rules were established for, amongst other things, the detection and treatment of conflicts of interest.

D.7 Is more than one Group company listed in Spain?

Yes No

Identify the listed subsidiary companies in Spain:

Indicate whether the respective areas of activity and the potential business relationships between them have been disclosed accurately, as well as those between the listed subsidiary company and the other companies in the group:

Define the possible business relationships between the parent company and the listed subsidiary, and between the latter and the other companies in the group

Identify the mechanisms established to resolve potential conflicts of interest between the listed subsidiary and the other companies in the group:

Mechanisms for resolving any conflicts of interest

E**CONTROL SYSTEMS AND RISK MANAGEMENT****E.1 Explain the scope of the Company's Risk Management System, including details of a fiscal nature.**

In accordance with the provisions of Article 5.4 of the Rules of the Board and without prejudice to the legal powers attributed to this body, as established in a specific way in section (xiii), the Board of Directors of Talgo, S.A. is responsible for "determining the policy for controlling and managing risks, including those of a fiscal nature, as well as for the overseeing the internal information and control systems".

The Talgo Group has been undertaking actions aimed at improving the control and risk management environment, and implementing systems and methodologies that allow the identification, evaluation, management, control and mitigation of the risks that it faces (operational, technological, financial, legal, tax, reputational).

Risk management is a continuous process that takes place at all levels of the organisation and in all of the Group's companies through different procedures, the main one being the structure of supervisory levels configured in the policies approved by the Board of Directors. Therefore, given that the Board of Directors has been assigned responsibility for maintaining the Talgo Group's internal control system, this manifests itself in the monitoring and control of the significant risks facing the Talgo Group and in the approval of actions aimed at improving the existing policies and procedures.

Meanwhile, the Audit Committee conducts a regular review of the internal control and risk management systems, to ensure that they are operating properly.

Internal control forms part of the Talgo Group's Corporate Risk Management System, and the basic components of that system are as follows:

a) Control environment

The Talgo Group gives priority to maintaining a control environment in its organisation, which forms the basis of all of the other elements of internal control, providing discipline and structure.

Management's philosophy and style constantly strengthens the culture of internal control within the organisation.

Senior Management is responsible for designing and reviewing the organisational structure, for defining reporting lines and authorising the appropriate distribution and segregation of tasks and functions, as well as for ensuring that sufficient procedures exist for its proper dissemination and understanding.

b) Regular evaluation of the main risks

During 2016, the risks assessed to have adequate coverage have been described in section E3.:

c) Control activities

The Talgo Group (by means of the governing bodies responsible for its internal control system) designs and implements control activities to reduce the risks detected. Those activities are communicated in such a way that they are understood by the employees and performed in an appropriate way.

All of the controls are designed with the aim of preventing, detecting, mitigating, offsetting and correcting the potential impact of risks in good time, and to this end preventative and detective controls are employed, as well as manual and automatic controls.

The control and risk management function is structured around two basic lines of defence, which have different roles and responsibilities. These lines are as follows:

-The organisational units, which assume risks during the ordinary performance of their activities. They are the owners of the risks and are responsible for the identification, detection and mitigation of risk.

- The Audit Committee and the Internal Audit Function, which are responsible, primarily, for ensuring the proper functioning of the control and risk management system, for defining the regulatory and methodological framework and for conducting the regular monitoring and overall control of the Group's risks. They are also responsible for supervising the effectiveness of the risk controls established.

d) Information and communication

The information systems are designed to facilitate the data required internally and externally, which may have an impact on the organisation. These systems collect, process and distribute the necessary information to users to enable the proper performance of their functions.

e) Supervision, organisation and responsibilities in their management.

The Talgo Group considers that an oversight system is essential in order to understand the operating level of the internal control system and to maintain an updated risk map.

E.2 Identify the bodies responsible for the preparation and implementation of the Risk Management System, including tax matters.

As described in the section above, the Board of Directors is responsible for "determining the policy for controlling and managing risks, including those of a fiscal nature, as well as for supervising the internal information and control systems", as established in the Rules of the Board of Directors of Talgo, S.A..

Meanwhile, the Audit Committee, through the functions that correspond to it in terms of the information and internal control systems, is responsible for supervising the preparation and control of the financial information in general, and of all of the procedures implemented for that purpose in particular, as well as for supervising the internal audit function and the relationship with the external auditor, with the purpose of ensuring its independence and obtaining a clean audit opinion, amongst other functions. Similarly, that committee is specifically responsible for regularly reviewing the internal control and risk management systems, so that the main risks are properly identified, managed and disclosed.

Similarly, its main activities include ensuring the independence and effectiveness of the internal control systems (proposing the selection, appointment, re-election and removal of the head of the internal audit service); receiving regular information about its activities and verifying that senior management takes into account the conclusions and recommendation of its reports.

Similarly, the Internal Auditor of the Talgo Group is responsible for ensuring the control of the risks facing the Group, amongst other functions, and to that end, he shall participate in the review and evaluation of the systems and procedures for controlling and mitigating risks. The Talgo Group performs internal audit work using its own staff, as well as external advisors, when necessary, which, under the supervision of the Audit Committee, ensure the proper functioning of the information and internal control systems.

Finally, it is worth noting the direct and continuous involvement of the Company's different departments, as well as of its Directors, and ultimately, the Steering Committee, in the operation of the procedures and tools for analysing and managing the specific risks associated with the Talgo Group's activities, for both the execution of each project, as well as during the phases prior to that.

E.3 Indicate the main risks, including any tax risks, which may affect the achievement of the business objectives.

The risks facing the Talgo Group in the performance of its activity may be classified as follows:

Strategic and business risks

These risks are inherent to the sector in which the Talgo Group operates and are linked to losses in value resulting from external factors, economic cycles, changes in patterns of demand and market structures.

The activities that the Talgo Group undertakes are mainly affected by the following risks:

- Legal risk

- Country risk
- Delays in the development of infrastructure projects
- Variations in the regulatory framework
- The evolution of demand

Financial and tax risks

The Talgo Group is subject to risks arising due to volatility in interest rates, exchange rates, prices and credit, as well as movements in other financial variables that may negatively affect the Group's liquidity.

Prudent liquidity risk management involves maintaining sufficient cash, the availability of financing through a sufficient amount of committed credit facilities and having the capacity to liquidate market positions. The Group's Management performs regular monitoring of the Group's liquidity forecasts on the basis of its expected cash flows both over the short-term and long-term. The Group maintains sufficient cash to meet its liquidity requirements.

The Group operates with a portfolio of clients that mostly belong to the public railway sector, which means that the incidence of credit risk resulting from a lack of solvency or delay in payments by its clients is very low. Nevertheless, the Management team of the Talgo Group considers that this risk represents a key aspect in the daily management of the business, and so it focuses its efforts on the proper supervision and control of the evolution of its receivables accounts and the delinquency thereof. Credit risk represents the possible losses resulting from a failure to pay the monetary or quantifiable obligations by a counterparty to which the Talgo Group has granted net credit and that is pending settlement or collection. Counterparty risk comprises the possible failure to fulfil the requirements acquired by a counterparty by virtue of commercial contracts, generally established over the long-term.

The variable rate debt issued exposes the Talgo Group to cash flow interest rate risk, and for this, the Group's Management puts in place policies for the management of interest rate risk.

Similarly, the Group is exposed to possible changes in tax regulatory frameworks, as well as to uncertainties arising from different potential interpretations of the tax legislation in force.

Risk of cyber attack and fraud

The Talgo Group is exposed to the occurrence of criminal and fraudulent acts of a cyber nature, regardless of whether or not they are directed against the Company, in that they may affect its assets.

Compliance risk

The Talgo Group is exposed to compliance risk, which include the cost associated with possible sanctions for the infringement of laws and regulations, or those sanctions resulting from the materialisation of operational events (environmental damage, damage to third parties, leaking of confidential information, health, hygiene and safety in the workplace, etc.) or from the violation of the Company's internal policies and procedures.

Criminal liability risks

The reforms to Article 31 bis of the Penal Code, which took place in 2010 and 2015, establish the criminal liability of legal entities. In this context, the Talgo Group may be responsible for certain crimes in Spain, if its administrators, executives or employees commit such crimes during the performance of their functions and in the interests of the Company.

To prevent the materialisation of this risk, the Talgo Group is implementing a Crime Prevention Model, which introduces the necessary measures to prevent crimes from being committed in the business environment and to exempt the Company from liability in the case that such crimes are committed.

E.4 Identify whether the entity has a risk tolerance level, including for tax matters.

As a general premise, the Talgo Group has a low risk tolerance level and a prudent profile when it comes to taking decisions that may involve risk exposure; it always seeks to ensure sustainable growth over time. To this end, it has established a series of fundamental basic premises that characterise the target behaviour of the Talgo Group and which cut across the whole organisation. These premises relate to the solvency, liquidity and robustness of the results.

The Group operates a risk management system to address the difficulties associated with the management of the different projects that it undertakes. This begins with the selection of projects and the subsequent preparation of the offer, and it enables the identification and management of the different risks facing the Company during the normal course of its business. The results of this risk assessment are presented to the Executive Committee so that it can take decisions regarding the presentation of offers and the completion of the process. The project team, coordinated by the project manager, shall be responsible for defining actions to mitigate the risks and for controlling them until the completion of the project.

E.5 Indicate any risks, including tax risks, that have arisen during the year.

No additional material or extraordinary risks arose during 2015, including tax risks, besides those details in the Annual Financial Statements, and in any event, without comprising the results, strategic objectives or equity. These materialised risks are risks inherent to all companies in the sector and no significant incidents were generated during the last year, given that the main risks that may affect the achievement of the business risks are managed in an active way by the organisation and the mitigation and control systems in place in the different areas have worked.

E.6 Explain the plans for addressing and supervising the main risks facing the entity, including those relating to tax risks.

Internally, an on-going evaluation is performed of the risks that affect the Talgo Group at all times, with the participation of the heads of the different areas involved. Specific proposals arise from that analysis for the mitigation of the risks, and even the veto of certain types of operations.

The Group has response plans that are aimed at reducing the impact and the likelihood of materialisation of the critical risks detailed in point E.3. or to improve the level of preparation to handle the risk.

Below we describe the main response plans for the most important categories of risk facing the Company:

1. Risks of a financial nature

The management activities that are performed in the core of the Talgo Group, in this regard, focus on managing the uncertainty in the financial markets and trying to minimise its potential adverse affects on the financial profitability of the Group.

The Group's Financial Department identifies, evaluates and covers the financial risks, establishing policies for the management of global risks, as well as for specific areas, such as exchange rate risk, interest rate risk, liquidity risk, the employment of derivatives and non-derivatives, investment of surplus liquidity and deviations from project budgets.

a) Market risk

The various companies of the Talgo Group operate in the international environment and, therefore, are exposed to exchange rate risks due to foreign currency transactions. In order to control the exchange rate risk that arises on future commercial transactions, and recognised assets and liabilities, the Group's companies enter into currency hedging contracts, however the majority of the Group's operations are undertaken in the functional currency, euro.

The aim of these hedges is to try to avoid the impact of changes in foreign currencies in the different contracts signed, in such a way that the Group's results are a faithful reflection of its industrial activity and services.

b) Credit risk

The majority of the receivables and work in progress balance that the Group holds correspond to several clients located in different countries. In most cases, the contracts include on-going payments that are made as the project progresses.

It is common practice for the Company to insure certain risks of resolution or non-payment of export contracts, by taking out export insurance policies and letters of credit, in accordance with the standards for the OECD Consensus for this type of instrument. The decision as to whether or not to perform the hedge is taken on the basis of the type of client and the country in which it operates.

c) Liquidity risk

The Group's Management performs regular monitoring of the Group's liquidity forecasts on the basis of its expected cash flows both over the short-term and long-term. The Group maintains sufficient cash to meet its liquidity requirements

The search for and selection of business opportunities with the highest possible level of self-financing, within the existing market conditions, for each one of the contracts. In the case of manufacturing projects, which have an average execution period of approximately three years, the billing and execution milestones may not be aligned in terms of time, which may require the consumption of financial resources.

d) Cash flow interest rate and fair value risk

The Group's interest rate risk arises from its long-term borrowings. The variable rate debt issued exposes the Group to cash flow interest rate risk, and for this, the Group's Management puts in place policies for the management of interest rate risk, such as interest rate hedges and swaps.

e) Risk resulting from deviations in project budgets

Deviations from project budgets that serve as the basis for the preparation of the respective bids, are analysed and controlled using a detailed IT system for each cost item, which compares the budgeted cost of these items with the reality of the cost situation for each project on an on-going basis. In this way, over the life of the projects, continuous monitoring is performed of this data through a complex internal process created for that purpose, in which each department involved in each project participates.

2. Quality management system and environment

When carrying out our activities, priority is given to improving the effectiveness of our management systems in a sustainable, safe and quality way that achieves maximum satisfaction for our clients, employees and suppliers.

The guidelines that govern these activities are contained in our quality, prevention and environmental policies, which reflect the following standards: ISO 9001, ISO 14001 and IRIS.

3. Reliability of financial information

In Section F, details are provided of the Internal Control System for Financial Reporting (SCIIF).

4. Other preventative procedures

Employment risk prevention system.

Employment risk prevention systems have been implemented for all of the activities, in accordance with the requirements of Law 31/1995 and its draft legislation.

Model for the Prevention and Detection of Crimes

The Talgo Group is currently consolidating its Model for the Prevention of Crimes, in accordance with the provisions of Article 31 bis of the Penal Code, reformed following the approval of Organic Law 5/2010, dated 22 June 2010, by virtue of which Spanish criminal legislation was adapted to reflect the legislation adopted in neighbouring countries and to a reality that is more consistent with our times, whereby introducing criminal responsibility for legal entities in Spain for crimes that employees and managers may commit in the core of their organisation.

In this regard, the Talgo Group has a duty to adopt and execute organisation and management procedures, with the maximum efficiency possible, which should include surveillance and control measures to prevent any criminal activity in the organisation and which, at all times, ensure the legality of the actions that employees and managers of the Talgo Group carry out, during the performance of their professional activities.

F INTERNAL CONTROL AND RISK MANAGEMENT SYSTEMS RELATING TO THE FINANCIAL REPORTING PROCESS (SCIIF)

Describe the mechanisms that comprise the internal control and risk management systems relating to the process for financial reporting (SCIIF) by the entity.

F.1 The entity's control environment

Specify at least the following components, indicating the main features in each case:

F.1.1. The bodies and/or functions responsible for: (i) the existence and maintenance of an adequate and effective SCIIF; (ii) its implementation; and (iii) its supervision.

In accordance with the provisions of the Company Bylaws and the Rules that develop them, the governing bodies are: (i) the Board of Directors; (ii) the Audit Committee; and (iii) the Internal Audit Department, which provides support to the Audit Committee.

Talgo's Board of Directors is the governing body responsible for the existence and maintenance of an appropriate and effective SCIIF. The Audit Committee, which assumes the powers delegated to it by the Board of Directors, is the body responsible for supervising the process for the preparation and presentation of the regulated financial information and the effectiveness of the Company's internal control systems, the internal audit services and the risk management systems, as well as for discussing any significant weaknesses detected in the internal control system with the auditor of the accounts or the audit firms during the performance of the audit.

The Audit Committee entrusts the supervision of the effectiveness of the Internal Control System for Financial Reporting (SCIIF) to the Internal Audit team, through its exercise of a unique and independent governance function, in line with the rules and standards of professional quality that contribute to good corporate governance and to ensuring that the financial information has been prepared reliably.

The Group management, and specially the Economic-Financial Department is the area responsible for the design, implementation and maintenance over time of an appropriate and effective system of internal controls over financial information.

F.1.2 The existence or otherwise of the following elements, especially in connection with the financial reporting process:

- The departments and/or mechanisms responsible for: (i) the design and review of the organisational structure; (ii) defining clear lines of responsibility and authority, with an appropriate distribution of tasks and functions; and (iii) deploying sufficient procedures for its proper dissemination throughout the entity.

According to the provisions of the Rules of the Board, the Appointments and Remuneration Committee is responsible for analysing the process that enables the orderly succession of the Chairman and CEO, who the Board is responsible for appointing, and for reporting on the appointment and removal of the Directors that report directly into the CEO, amongst other functions.

Meanwhile, the CEO, with the assistance of the Director of Human Resources, in her capacity as an advisor to the CEO, is responsible for determining the organisational structure for the first line of reporting in the organisation (i.e. the managers that report directly into him).

In turn, these managers are responsible for deciding any changes in the organisational structure under their immediate control, following authorisation from the CEO and advice

from the Director of Human Resources.

The Compensation Department, which sits within the Human Resources Department, evaluates the classification and description of all of the jobs in the Group on a regular basis, with the aim of maintaining an appropriate segregation of duties, avoiding duplication of roles and improving coordination between the different departments, which results in the improved efficiency of the Group's operations. All employees can access the updated organisational chart through the Group's IT systems.

In terms of the scope of SCIIF, in the processes determined as critical for the preparation of financial information, the main tasks and controls to be performed are defined, along with the names of the people responsible for their execution and supervision, in such a way that the lines of responsibility and authority are clearly defined.

In addition, for these processes, details are documented of the segregation of duties for tasks that are considered to be incompatible.

- Code of conduct, approval body, degree of dissemination and instruction, principles and values covered (indicating whether there is any specific mention of record keeping and financial reporting), body responsible for analysing breaches and proposing corrective actions and sanctions.

Talgo, S.A., as the parent company of the other entities, has approved a code of conduct for the management and control of confidential information, the transparent communication of significant information, the performance of operations involving own shares and the detection and treatment of conflicts of interest; it also imposes certain obligations, limitations and prohibitions on affected persons, and the managers of the own shares.

Additionally The Talgo Group has a Code of Conduct approved by the Board of Directors, which incorporates the values ethics that are to govern all the activities that are carried out, which includes those principles and values that govern the financial responsibility for the registration of operations, financial preparation and compliance with the applicable regulations. This code has been disseminated throughout the Group and with on-line training. It is available at Intranet of the Group

Control of the application of the code of conduct corresponds to the compliance unit, which operates to ensure compliance with this code.

- Channel for whistleblowing that allows irregularities of a financial and accounting nature to be communicated to the Audit Committee, in addition to potential breaches of the code of conduct and irregular activities in the organisation, stating whether reports made through this channel are confidential.

The Talgo Group has specific channels in place that employees may use to communicate any irregular circumstances that may affect the performance of their work, to the Audit Committee through the Internal Audit Department.

In addition, a better tool is being developed to enable the communication to the Audit Committee of potentially significant irregularities of a financial and accounting nature. The sender of such a communication must identify himself, however the system guarantees confidentiality and the protection of his identity.

The Audit Committee is responsible for supervising these channels and that body is informed about both the activity and the measures taken in this regard on a regular basis by the Internal Audit Department. In its exercise of this oversight role, the Internal Audit Department meets with the Human Resources departments and the legal and employment

teams, to the extent that it concludes that work needs to be performed within their respective areas of competence.

- Training programs and periodic refresher courses for staff involved in the preparation and review of financial information, as well as the assessment of SCIF, which cover at least, accounting rules, audit standards, internal control and risk management.

The Group has a training budget at the corporate level and designs an annual training plan. Under this framework, the training needs are identified and activities are scheduled for each department, on the basis of the requirements of each job.

A performance evaluation is conducted for every employee on an annual basis, to determine a development plan and individual training program for each employee, which is integrated into the Global Training Plan.

Training is usually classroom based and is delivered by professionals from both inside and outside the group, in accordance with the requirements in each area to involve specialists, and it also uses IT resources, which are made available to the relevant people, so that they have access to the different course and seminars.

In addition, refresher courses are provided by external specialists at least once a year, with the aim of ensuring affected employees are updated about any regulatory changes that may affect the preparation of the financial statements.

The members of the Economic-Financial department also have refresher meetings with the external auditors, tax advisors and internal auditors, to understand the main changes that have happened in the last year, covering areas such as accounting and financial reporting principles, audit guidelines and guidelines for the control and management of financial risks.

The key indicators about the training programs completed by the Economic-Financial department and other departments in the Group related to the systems of control over the Talgo Group's financial information that provide support to the different businesses in 2016 were as follows:

- Number of people in the financial department and other departments involved in training plans about financial reporting: 145
- Number of hours of training received: 1.160 hours
- Main training activities:
 - Courses related to new IFRS (International Financial Reporting Standards).
 - Specific training in relation to the Control System. Internal Financial Information.
 - Specific training of the Crime Prevention and Detection Model.
 - Training in Spanish and international taxation.
 - Training in management control.
 - Finance for Non-Financial.
 - IT training on all upgrades, new SAP modules and new tools that contribute to improve the control of financial information.

The training programs are extended to those members of the organisation that may be affected by them in the performance of their tasks.

F.2 Evaluation of the risks associated with financial reporting

Report, at least:

F.2.1. The main features of the process for identifying risks, including those relating to error or fraud, stating whether :

- A process exists and has been documented.

The identification of risks in the area of financial information is an on-going and documented process, carried out by the Economic- Financial Department, in collaboration with the Internal Audit Department under the framework of the analysis and risk management system, which establishes frequencies, methodologies, risk types and other basic guidelines. In this regard, the Group has received external advice from the auditors and advisors. The Talgo Group has carried out an analysis of the risks of financial information that may affect the true and fair view of the information it publishes. To do so, based on the financial statements at the end of the year, those transactions and material transactions have been identified, determining the relevant processes on which periodic monitoring and supervision is to be carried out.

From the identification and analysis of the risks associated to the achievement of the objectives of the reflection of the faithful image of the Talgo Group's financial information, the implemented controls are identified as well as the additional controls to be implemented.

The identification of the risks of the financial information is carried out through an understanding of the type of transactions carried out in the organization, determining their complexity and the applicable regulations, the volume of the same, the quantitative importance of the affected items, The complexity of the calculations, the need to use estimates and projections, the application of judgments and the unusual operations performed during the period under review.

- The process covers all of the objectives of financial reporting (existence and occurrence; completeness; valuation; presentation, disclosure and comparability; and rights and obligations), whether it is updated and how often.

Each year, analysis is performed to identify the areas and processes, as well as the companies and locations in which significant transactions are generated. This analysis includes a review of the routine processes involved in the generation of financial information. During the year, the risk areas identified are monitored and updated, taking into account any new significant events that happen during the period. In addition, the internal control system takes into account the performance of regular control activities focused on identifying new risk areas, such as for example, meetings between the financial and management control departments and the heads of the business areas, and meetings to review the financial information reported by the subsidiary companies. The process covers all of the financial reporting objectives. This process is ultimately overseen by the Audit Committee.

The functions to be carried out and their frequency are as follows:

1. Specification of the objectives of the financial reporting controls by those involved in the process to generate the financial information. These objectives should be aligned with the global objectives to ensure the reliability of the financial information:

- Existence and Occurrence: Registered transactions that are not valid, because

they do not correspond to the exercise or due to lack of authorization (of the client, of the responsible with powers etc.).

- Integrity: Operations and balances that must be registered are not.
 - Cutting of operations: Transactions recorded in different accrual periods.
 - Registration: Operations registered with errors in the data imputation (amounts, etc.).
 - Valuation: transactions (assets, liabilities, expenses, income and commitments) recorded in which the amounts are not correct because the valuation has not been adequate.
 - Presentation, breakdown and comparability: Incorrect classifications and breakdowns in the different lines of the financial statements as well as in the accompanying explanatory notes.
 - Rights and obligations: Transactions involving the recording of the appropriate provisions derived from the operation itself.
2. In addition, as an internal control system, the Talgo Group Internal Control System focuses on the following objectives, in addition to the objective of obtaining reliable financial information:
- Efficiency in operations: search for the realization of operations through the necessary resources, but with adequate efficiency.
 - Compliance: avoiding non-compliance with applicable regulations and / or obligations acquired with third parties due to normal operations and that may give rise to claims and therefore possible losses for the company.
 - Asset safeguard: It is related to assets acquired or liabilities incurred (or canceled) that have not been authorized in the corresponding level.
3. Explicit assessment of the probability of an error with material impact caused by fraud. To do so, the following guidelines will be taken into account:
- Agreements signed with third parties (suppliers, customers, etc.)
 - Persons authorized to sign agreements, contracts, etc.
 - The people who hold the powers in the organization
 - Valuations that are made based on judgments and / or estimates and have a significant impact on the generation of financial information.
 - Non-recurring transactions and transactions.
 - Review according to the Annual Internal Audit Plan established in the supervision process, the reliability and integrity of the IT systems that respond to the generation of financial information.
 - Continuous review of the best practices of the sector and the situation in the associations to which the Group is associated because of its relation with the evolution of the sector, etc.
4. Additionally, in the process, the possibility of risk of error is considered in certain processes not linked to specific transaction classes, but especially relevant in view of their importance in the preparation of the reported information, such as the trial review process and significant accounting policies or the closing and consolidation process. In this regard, and in order to cover the risks of these processes, the Group has appropriate control activities.
5. Conduct a periodic review of existing controls with those responsible for the generation of financial information in order to identify variations with respect to the previous period.
6. Periodic review of the control activities in each of the organization's processes that result in the financial information, establishing the recommendations detected, if necessary, for their implementation, as well as establishing those controls that are considered necessary.

- The existence of a process to identify the consolidation perimeter, taking into account, inter alia, the possible existence of complex corporate structures or special purpose entities or vehicles.

The Group has a process in place for identifying the consolidation perimeter, which is performed by the consolidation team that forms part of the Finance Department in collaboration with the Department for Subsidiary Oversight, and this information is identified and updated at each monthly close.

The departure of companies from the Group.

- a) The entry of new companies into the Group both due to shareholder control as well as those resulting from other types of effective control, for which an informative procedure is established for all of the agreements/contracts signed by the existing powers of attorney, relating to the taking over and loss of control of companies.
- b) Removal of Talgo group companies.
- c) Changes or amendments to the shareholding stakes or the voting rights (both directly and indirectly, due to both shareholder control, as well as those resulting from other types of effective control), for which an informative procedure is established for all the agreements and contracts signed by the existing powers of attorney, in relation to the acquisition/sale of shares and stakes in other companies.

- The process takes into account the effects of other types of risks (operational, technological, financial, legal, tax, reputational, environmental, etc.) insofar as they impact the financial statements.

The process takes into account all of the identifiable risks (operational, technological, financial, legal, reputation, environmental, etc.) to the extent that they affect the financial statements.

- Which of the Company's governing bodies is responsible for supervising the process.

The Audit Committee, through the Internal Audit Department, is the body responsible for overseeing the process for the preparation and presentation of the regulated financial information, which includes the process for the identification of risks.

F.3 Control activities

State whether the Company has the following components in place and indicate the main features in each case:

- F.3.1. Procedures for reviewing and authorising the financial information and SCIIF description, to be disclosed to the securities markets, stating who is responsible in each case, as well as documentation describing the flows of activities and controls (including those relating to fraud risk) for the different types of transactions that may materially affect the financial statements, including the procedure for the accounting close and the specific review of significant judgements, estimates, valuations and projections.

The Group has descriptive documentation in place about the main processes which indicate the main flow of activities and the names of the people responsible for performing the various control activities.

The main processes for generating financial information that affect the financial statements in a material way have been fully documented by the Group. The processes for generating financial information covered by this documentation include the following:

- Consolidation and Reporting

- Human Resources management
- Recognition of Revenues and Expenses
- Billing and Clients
- Inventory and Purchases (materials and services)
- Investments
- Taxes
- Treasury
- Costs monitoring

For each one of these processes, the risks of error that may affect the reliability of the financial information have been identified (including the risks of errors in the significant judgements, estimates, valuations and projections) and the control activities performed to mitigate those risks. The person responsible for executing and supervising each control activity has been identified, along with the frequency of their performance and the evidence required to demonstrate the execution of the control activity. This system is updated on a continuous basis and is adapted on the basis of the risks identified.

In connection with the review of relevant judgments and estimates, the Talgo Group reports in its annual accounts one of the notes to the report of those most relevant areas in which significant estimates and judgments exist, as well as the key assumptions With respect to them. In this sense, the main estimates made refer to:

- Estimated loss of goodwill
- Income tax and tax assets
- Recognition of income using the percentage of realization method
- Useful lives of property, plant and equipment and intangible assets
- Provisions

The procedures for reviewing and authorizing the financial information of the Talgo Group that is published in the markets are initiated by its review by the Economic and Financial Management of each company, In the Consolidation Area, with the corresponding controls being established by the Economic and Financial Division of the Talgo Group. This process is controlled and supervised by the Internal Audit Department of the Talgo Group As part of its functions.

The individual and consolidated annual accounts and the quarterly financial reports are reviewed by the Audit Committee, as a preliminary step to their formulation by the Board of Directors, as established in the Regulations of the latter. In accordance with the provisions of the Regulations of the Board of Directors, the Audit Committee proceeds to read and review the information, as well as its discussion, with the Internal Audit Department and with the External Auditors (in the case of accounts Annual), as a preliminary step to the Board of Directors.

Once the Audit Committee has reviewed this information and gives its agreement and observations to be incorporated, the annual accounts are signed by the Board of Directors.

In relation to the quarterly information, the Audit Committee reviews the critical financial information (financial information, changes in results, details on the main headings, changes in cash flows, etc.) prior to the forwarding of this information to the Board Of Administration and later to the Market.

F.3.2. Internal control policies and procedures over the IT systems (including, amongst others, access security, control of changes, system operation, operational continuity and segregation of duties) that support the entity's significant processes regarding the preparation and publication of financial information.

The Group has an IT Systems department, which maintains a proper register and control of transactions and therefore, is dependent on its proper operation.

As part of the process for identifying the risks of error in the financial information, the team identifies which systems and applications are relevant for every one of the areas and processes that are considered to be significant. The systems and applications identified include, both those that are used directly for the preparation of financial information, as well as those that are significant for the effectiveness of the controls that mitigate the risk of errors in that information.

A methodological framework is defined in the design and implementation of the applications, which establishes the different points of control for ensuring that the solution obtained fulfils the requirements requested by the user and that the quality level fulfils the required standards of reliability, efficiency and maintainability.

The IT Systems department has established policies aimed at covering security in terms of access, through the access matrix and the segregation of duties with the definition of roles and resources, and the continuity of its operation, defining for this purpose a matrix of general controls structured around the following areas:

- Operations and safeguards for existing data, affecting the custody of it in external locations.
- Business continuity: the Group has developed appropriate systems involving access restrictions, protection plans, recovery, etc. in order to safeguard its operations.
- Security: the Group has established a Security Policy which is reviewed and updated on a regular basis, to ensure the absence of incompatibilities (matrix for the segregation of duties), and to define user profiles and adapt the access permitted by them.
- Change management: the process for all systems has been formalized (acquisition, development, amendments and maintenance, indicating the people responsible, approvals, evidence, etc.).

Talgo Group receives advice and support from independent external professionals who are experts in this field to ensure the suitability of the processes and controls implemented. In particular, during the year the new version of its ERP (Enterprises Resources Process) was updated to ensure, among other things, the safeguarding of information, data integrity, as well as greater efficiency in the Daily operation of the Talgo Group.

Likewise, the Group is in the process of implementing the GRC module of its IT tool to ensure its excellence in matters of Corporate Governance, Risk Management and Regulatory Compliance

F.3.3. Internal control policies and procedures for overseeing the management of activities outsourced to third parties, as well as those aspects involving appraisals, calculations and valuations entrusted to independent experts, when they may materially affect the financial statements.

The Group regularly reviews which activities carried out by third parties are relevant for the process for the preparation of financial information or that may indirectly affect its reliability.

Occasionally, valuations have been requested from independent experts (valuation of assets). In those cases, the departments responsible for the areas involved execute the controls and supervise their compliance with respect to the work of these experts, in order to verify their competence, training, accreditation and independence, as well as the validity of the data and methods used and the reasonableness of the hypotheses employed. In these cases, the company's policy is to use independent firms with prestigious reputations.

In this context, when the Group intends to rely on the work of an independent expert (understood as those third parties who issue advice or opinions about specialist subjects and who have adequate and accredited training and experience in the required field) that may affect the financial information in a significant way, the following aspects should be evaluated:

- Adequate professional competence and approval by the corresponding professional body (when so required by a relevant legal standard).
- The relationships or links held by the external professional with the organisation for the purposes of assessing their independence.

F.4 Information and communication

State whether the Company has the following components in place and indicate the main features in each case:

F.4.1. A specific function responsible for defining and updating the accounting policies (an accounting policies team or department) and for resolving queries or conflicts resulting from their interpretation, maintaining regular communication with the managers responsible for the operations in the organisation, as well as an updated accounting policy manual that has been sent to all of the units through which the entity operates.

The Group's Economic-Financial Department is responsible for preparing the consolidated financial statements as well as the parent company's financial statements. Its responsibilities include the resolution of accounting questions for the other Group companies, with which a direct and open relationship is maintained through the controllers and financial managers assigned to each subsidiary. The Economic-Financial Department is responsible for identifying, defining and communicating the accounting policies that affect the Group, and those policies are reflected in the Manual of Accounting and Financial Procedures and Policies, which is updated regularly and is available on the Group's internal network to which the affected departments have access.

In addition, the Talgo Group has a set of documents that are adapted to the needs, requirements and size of the Group, in which the rules for the preparation of financial information are determined and explained and how these standards should be applied to the operations Of the entity called the Information Package. These documents not only explicitly refer to the rules that apply to each type of transaction, but also to develop and explain the interpretation of the same to fit exactly each type of transaction.

These documents are updated periodically and at least annually, and incorporate the applicable rules for the corresponding exercise. The significant modifications made are communicated to the dependent companies to which they are applicable

via e-mail, videoconference or from the holding of specific meetings with those responsible for them.

F.4.2. Mechanisms for collating and preparing financial information in standard formats that may be applied and used by all of the units in the entity or group, which support the main financial statements and accompanying notes, as well as disclosures concerning SCIIF.

In an annual basis, a schedule with the information needs for the preparation of the financial information of the following year is established, containing all the documents, responsible for them and dates of delivery of the documentation. This information report is made through the Financial Information Packages prepared by the Economic and Financial Department. These packages include the information necessary to report from the subsidiaries to the parent company in preparation for the Consolidated Financial Statements as well as the Information to be included in the accompanying notes.

The process of consolidation and preparation of the financial information is carried out centralized in the subsidiary Patentes Talgo, there being a Consolidation process broken down in which all the existing subprocesses are evidenced, personnel involved, locations, documentation used support and periodicity of the activities and controls that are carried out, among others.

In this process, the financial statements reported by the subsidiaries of the Talgo Group in the established formats are used, as well as the rest of the financial information required for both the accounting homogenization process and the coverage of the established information needs.

The Talgo Group has a series of controls implemented in the financial information packages as well as adequate blocks that allow to assure the reliability and correct treatment of the information received from the different subsidiaries.

It is worth noting the centralized performance of the various consolidation entries, analysis of changes in all equity items and results, changes in results obtained over previous periods and on approved budgets, analysis of the evolution of events and most relevant variables.

F.5 Supervision of the operation of the system

State indicating the main features of at least:

F.5.1. The SCIIF monitoring activities undertaken by the Audit Committee, as well as whether the entity has an internal audit function whose competencies include providing support to the committee in its oversight of the internal control system, including SCIIF. Also, report about the scope of the SCIIF assessment conducted during the year and the procedure by which the person responsible for carrying out the assessment communicated his results, whether the entity has an action plan that details the potential corrective measures, and whether its impact on the financial information has been considered.

The Audit Committee is responsible for overseeing the Group's financial information. The Audit Committee should ensure the effectiveness of the SCIIF, obtaining sufficient evidence of its proper design and operation, which requires it to evaluate the risk identification process, which may affect the fair presentation of the financial information, verify that controls exist to mitigate them and check that they function effectively.

The Audit Committee has the Internal Audit Department to carry out its supervisory work, including the evaluation of SCIIF. The Audit Committee oversees the staff involved in ICSID monitoring and evaluation:

- Display integrity and are independent when performing their work, in such as way that their conclusions are objective and impartial.
- Are competent and have the technical training necessary to carry out their work in a diligent way.

The Head of Internal Audit must present his work plan for the following year to the Audit Committee at least once a year. The plan shall include the tasks that will be performed to properly assess the SCIIF. The contents of the annual work plan are reviewed and updated on an on-going basis.

On the basis of this basis, the Head of Internal Audit must report his assessment of the SCIIF to the Audit Committee, summarising his most important findings, as well as the action plans proposed to address them. This report may be delivered in person, by attending the Audit Committee meetings or by means of reports send to the Committee.

In 2016, the Annual Work Plan presented and subsequently carried out by the Internal Audit team included the following aspects in relation to the SCIIF:

Analysis of the annual plan of the company and identification of the main risks on the financial information.

- Review of the financial information sent to the CNMV on a quarterly basis, together with a review of the correct execution of the main control activities of the accounting, consolidation and information processes and of the principal judgments and estimates.
- Supervision of the process of formalization and documentation of all existing control activities in the main business cycles of the Talgo Group. This documentation complies with the criteria established in the recommendations made by the CNMV in its guide for the preparation of the description of the internal control system on financial information, and the Internal Control System for Financial Information is in place and in operation.
- Supervision of advice by technological experts in relation to the following areas within the management of the Company's information systems: governance of information systems, information security, operations and network and application development and management Taking into account all the recommendations detected and implementing a plan of action and improvement in the short term.
- Audit of the financial information generation processes and the main subsidiaries, according to a rotation plan.
- Review of the critical processes of the Group focusing the work during the year in the following areas: Purchases, Inventories, HR, Logistics and Sales.
- Monitoring the status of proposed action plans in the face of weaknesses detected.
- Presentation to the Audit Committee of the results of the work carried out.

F.5.2. Whether a procedure is in place for discussion whereby the auditor of the accounts (in accordance with the provisions of TAS), the internal audit function and other experts may inform senior management and the Audit Committee or the Directors of the entity about significant internal control weaknesses identified during the annual accounts review process or any others entrusted to them. Also, report whether the entity has an action plan to try to correct or mitigate the weaknesses observed.

The Audit Committee meets regularly and prior to the issue of financial information to the markets. During 2016, the Audit Committee held meetings at which the Internal Audit Department reported the results of the work performed and the action plans it had put in place to introduce corrective measures.

In addition, the Committee met twice with the external auditors in 2016, and obtained information about regulatory updates, and the progress and results of the external audit corresponding to each half year.

Meanwhile, the auditor of the Group's accounts has direct access to the highest level of the Group, through regular meetings both to obtain the information it requires to perform its work, as well as to report the weaknesses identified in its controls.

The Group has a Multi-Year Internal Control Audit Plan that, amongst other things, established the procedure that is required to implement the corrective measures required after the development of the different work to supervise and review the controls established in the Group's main processes. Similarly, an established process exists for the supervision of the SCIIF defined by the Audit Committee, which contains aspects relating to the general criteria to apply in terms of the specific supervisory activities to which the SCIIF relates. The corresponding reports, which present the situation after the work entrusted has been performed, are evaluated by the members of the Audit Committee, together with the weaknesses identified during the aforementioned work. The Committee is also responsible for approving the proposed action plan to remedy the aforementioned control weaknesses.

F.6 Other relevant information

No other relevant information exists regarding the SCIIF that has not already been included in this report.

F.7 External auditor's report

Report whether:

F.7.1. The SCIIF information provided to the markets has been subject to review by the external auditor, in which case, the entity should attach the corresponding report as an annex. If not, it should report the reasons why.

The Group did not subject the information about the "Internal Control System for Financial Reporting" for review by the external auditor in 2016.

This Annual Corporate Governance Report has been prepared in accordance with the contents and structure of the model established in the governing legislation by the National Securities Market Commission.

Although this information is not subject to review for the issue of a report by the auditor, it has been made available to the external auditors so that they are aware of it and can verify it in the context of their audit of the accounts.

The Directors of the Group are aware of the recommendations, guidelines and references established for the completion of this information, and have applied them in their entirety. The information about the "Internal Control System for Financial Reporting" contained in the Annual Corporate Governance Report, in accordance with the scope of the procedures and report templates that the I.C.A.C. and the respective corporations that represent auditors established, where applicable.

DEGREE OF COMPLIANCE WITH CORPORATE GOVERNANCE RECOMMENDATIONS

Indicate the Company's degree of compliance with the recommendations stipulated in the Good Governance Code for listed companies.

In the event that any recommendation is not followed or is only partially followed, a detailed explanation should be provided of the reasons so that the shareholders, investors and the market in general, have sufficient information to assess the conduct of the Company. Explanations of a general nature are not acceptable.

1. **The bylaws of listed companies should not place an upper limit on the number of votes that may be cast by a single shareholder, nor should they contain any other restrictions that hinder the takeover of the Company by means of share purchases in the market.**

Compliant Explain

2. **When the parent company and a subsidiary company list on the stock exchange, they should accurately disclose:**

- a) **Their respective areas of activity and any potential business relationships between them, as well as any business dealings between the listed subsidiary company and the other companies in the group.**
- b) **The mechanisms in place for resolving any potential conflicts of interest that may arise.**

Compliant Partially compliant Explain Not applicable

3. **During an ordinary General Shareholders' Meeting, in addition to distributing the written Annual Corporate Governance Report, the Chairman of the Board of Directors should verbally inform the shareholders about the most relevant corporate governance considerations for the Company, in sufficient detail, and, in particular, he should provide information about:**

- a) **Any changes that have happened since the previous ordinary General Shareholders' Meeting.**
- b) **The specific reasons why the Company is not following any of the recommendations from the Corporate Governance Code and, where applicable, the alternative rules that apply in this regard.**

Compliant Partially compliant Explain

4. **The Company should define and promote a policy of communication and contact with shareholders, institutional investors and advisors with a right to vote, which is fully respectful of the rules against market abuse and ensures the similar treatment of shareholders who find themselves in the same position.**

And the Company should publish this policy on its website, including information about the way in which the policy has been put into practice and identifying the contact people or managers responsible for carrying it out.

Compliant Partially compliant Explain

5. The Board of Directors should not present any proposals to the General Shareholders' Meeting for the delegation of powers, to issue shares or convertible securities excluding the right to preferential subscription, for an amount exceeding 20% of the capital at the time of delegation.

And when the Board of Directors approves the issue of any shares or convertible securities excluding the right to preferential subscription, the Company should immediately publish reports about this exclusion on its website, as referred to by commercial legislation.

Compliant Partially compliant Explain

6. The listed companies that prepare the reports cited below, be they mandatory or voluntary, must publish them on their website sufficiently in advance of the date of the ordinary General Shareholders' Meeting, even though their distribution is not mandatory:

- a) Report about the independence of the auditor.
- b) Reports about the operation of the Audit Committee and the Appointments and Remuneration Committee.
- c) Report from the Audit Committee about related party transactions.
- d) Report about the policy regarding corporate social responsibility.

Compliant Partially compliant Explain

The Company does not publish the reports.

7. The Company should stream the General Shareholders' Meetings live on its website.

Compliant Explain

8. The Audit Committee ensures that the Board of Directors presents the accounts to the General Shareholders' Meeting without limitations or qualifications in the audit report and, in the exceptional cases in which qualifications exist, both the Chairman of the Audit Committee and the auditors must clearly explain to the shareholders the content and scope of those limitations or qualifications.

Compliant Partially compliant Explain

9. The Company should permanently publish on its website the requirements and procedures that it accepts for proving the ownership of shares, the right to attend the General Shareholders' Meeting and the exercise or delegation of the right to vote.

And those requirements and procedures should favour the shareholders' attendance and exercise of their rights and be applied in a non-discriminatory manner.

Compliant Partially compliant Explain

10. When a legitimate shareholder has exercised his right to add an item to the meeting agenda or to present new agreement proposals, prior to the date on which the General Shareholders' Meeting is held, the Company:

- a) Should immediately communicate those complementary points and new proposed agreements.
- b) Should publish the attendance card template or vote delegation form or proxy vote form with the necessary amendments so that votes may be cast on the new agenda items and alternative agreement proposals, under the same terms and conditions as those proposed by the Board of Directors.
- c) Should subject all of those points and alternative proposals to a vote and apply the same voting rules to them as to those formulated by the Board of Directors, including, in particular, assumptions and inferences about the direction of the vote.
- d) After the General Shareholders' Meeting, the Company should communicate the breakdown of the vote on all of the complementary points and alternative proposals.

Compliant Partially compliant Explain Not applicable

11. In the event that the Company intends to pay attendance premiums for the General Shareholders' Meeting, establish, in advance, a general policy for such premiums and that policy should be stable.

Compliant Partially compliant Explain Not applicable

12. The Board of Directors should perform its duties with unity of purpose and independence of judgement, affording the same treatment to all shareholders who find themselves in the same position. It should also be guided by the corporate interest, understood as the achievement of a profitable and sustainable business over the long-term, which promotes continuity and maximises the Company's economic value. And in pursuit of the corporate interest, as well as with respect for the laws and rules and a behaviour based on good faith, the ethics and the respect for the uses and the commonly accepted good practices, it should try to reconcile its own corporate interest with, as appropriate, the legitimate interest of its employees, its suppliers, its clients and the other stakeholder groups that may be affected, as well as the impact of the Company's activity on the community as a whole and on the environment.

Compliant Partially compliant Explain

13. The Board of Directors should have the necessary size for its effective and participatory operation, which means that it is advisable for it to comprise between five and fifteen members.

Compliant Explain

14. The Board of Directors should approve a policy for selecting Directors that:

- a) Is specific and verifiable.
- b) Ensures that the proposals for appointment or re-election are based on previous analysis of the needs of the Board.
- c) Favours diversity in terms of knowledge, experience and gender.

The results of the prior analysis of the needs of the Board of Directors should be collated in a justification report by the Appointments Committee, which should be published when the General Shareholders' Meeting is convened for the ratification, appointment or re-election of each Director.

And the policy for selecting Directors should promote the objective that the number of female Directors should represent, at least, 30% of the total number Board members by 2020.

The Appointments Committee shall verify compliance with the Director selection policy on an annual basis and shall report its findings in the Annual Corporate Governance Report.

Compliant Partially compliant Explain

15. The Proprietary and Independent Directors should constitute a large majority of the Board of Directors and the number of Executive Directors should be the minimum necessary, taking into account the complexity of the company group and the percentage shareholdings held by the Executive Directors in the Company's share capital.

Compliant Partially compliant Explain

16. The percentage of Proprietary Directors over the total number of Non-Executive Directors should not be greater than the proportion of the share capital held by those Directors, over the total share capital balance.

This criteria may be relaxed:

- a) For companies with high levels of capitalisation, in which only a few of the shareholders' stakes are legally considered to be significant.
- b) In the case of companies with a plurality of shareholders represented on the Board of Directors that have no relationships between them.

Compliant

Explain

17. The number of Independent Directors should represent, at least, half of the total number of Directors.
Nevertheless, when the Company does not have a high level of capitalisation or even if it does, when one or several shareholders, who control more than 30% of the share capital, are acting together, then the number of Independent Directors should represent, at least, one third of the total number of Directors.

Compliant

Explain

18. The companies should publish and update the following information about their Directors on their website:

- a) Professional and biographical profile.
- b) Details of other Board of Directors to which they belong, regardless of whether they are listed companies or not, as well as the other paid activities that they perform, whatever their nature.
- c) An indication of the category of Director to which they belong, stating, in the case of Proprietary Directors, the shareholder that they represent or with whom they have links.
- d) Date of their first appointment as a Director of the Company, as well as the dates of any subsequent re-elections.
- e) Any shares that they own in the Company, and options they hold over them.

Compliant

Partially compliant

Explain

19. In the Annual Corporate Governance Report, following verification by the Appointments Committee, reasons should be provided to explain why Proprietary Directors have been appointed at the request of shareholders whose shareholdings represent less than 3% of the total share capital; and reasons should be provided to explain why formal requests to participate in the Board have been denied for shareholders whose shareholdings are the same size or larger than those held by others who have been appointed as Proprietary Directors upon request

Compliant

20. Proprietary Directors should submit their resignation when the shareholder that they represent sells its entire shareholding. And they should also resign when the shareholder that they represent reduces its shareholding to a level that requires a reduction in the number of Proprietary Directors, to the extent required.

Compliant Partially compliant Explain Not applicable

21. The Board of Directors should not propose the removal of any Independent Director before he has completed his statutory term in office, except when just cause requires it, as assessed by the Board of Directors based on a report from the Appointments Committee. In particular, just cause shall be understood to exist when: the Director takes over new roles or enters into new obligations that prevent him from devoting the necessary time to the performance of the duties inherent to the role of Director; when he breaches the duties inherent to his role; or when circumstances arise that cause him to lose his independent status, in accordance with the provisions of applicable law.

The removal of Independent Directors may also be proposed as a result of a takeover bid, merger or other similar corporate transaction that involves a change in the share capital of the Company, when such changes in the structure of the Board of Directors are promoted by the criteria of proportionality indicated in recommendation 16.

Compliant Explain

22. The companies should establish rules that oblige the Directors to report and, where applicable, resign in those cases that may harm the Company's credibility and reputation and, in particular, that oblige them to report any criminal proceedings in which he appears as the accused, as well as any subsequent legal proceedings, to the Board of Directors.

And if a Director is prosecuted or brought to trial for any of the crimes mentioned in corporate law, the Board shall examine his case as soon as possible and, in light of the specific circumstances, shall decide whether or not it is appropriate for him to remain in office. Furthermore, everything that the Board is aware of shall be included, in a reasoned way, in the Annual Corporate Governance Report.

Compliant Partially compliant Explain

23. All of the Directors should clearly express their opposition when they consider that a proposed resolution submitted to the Board may be contrary to the corporate interest of the Company. And this should apply, in particular, to the Independent Directors, as well as to any other Directors not affected by the potential conflict of interest, in cases of decisions that may harm the shareholders not represented on the Board.

And when the Board adopts significant or repeated decisions about which the Director has expressed serious reservations, he should draw the appropriate conclusions and, resign if he so chooses, explaining the reasons in a letter that makes reference to the following recommendation. This recommendation also applies to the Secretary of the Board, even if he is not a Director.

Compliant Partially compliant Explain Not applicable

24. When a Director leaves office before the end of his term, either because he resigns or for another reason, he should explain the reasons in a letter that should be sent to all of the members of the Board. And, notwithstanding the fact that this should be communicated as a significant event, the reason for the departure should be included in the Annual Corporate Governance Report.

Compliant Partially compliant Explain Not applicable

**25. The Appointments Committee should ensure that the Non-Executive Directors have sufficient time available to properly carry out their functions.
And the Rules of the Board should establish the maximum number of company boards on which its Directors may sit.**

Compliant Partially compliant Explain

26. The Board should meet with the necessary frequency to properly perform its functions and, at least, eight times a year, in accordance with the calendar of dates and agendas established at the beginning of the year, to which each Director may propose the addition of other items, not initially considered.

Compliant Partially compliant Explain

27. Director absences should be kept to a bare minimum and quantified in the Annual Corporate Governance Report. And when Directors have no choice but to delegate their vote, they should do so with instructions.

Compliant Partially compliant Explain

28. When the Directors or the Secretary express concerns about a proposal or, in the case of the Directors, about the Company's performance and those concerns are not resolved at the Board meeting, then the person expressing them can request that they be recorded in the meeting minutes.

Compliant Partially compliant Explain Not applicable

29. The Company should establish appropriate channels for the Directors to be able to obtain the advice they need to carry out their duties, including, when the circumstances so require it, external advice at the expense of the Company.

Compliant Partially compliant Explain

30. Independently of the knowledge that the Directors need to perform their duties, the Companies should also provide the Directors with training programs to update their knowledge when the circumstances so require it.

Compliant

35. The Secretary of the Board should act in a special way to ensure that the Board is mindful in its actions and decisions of the recommendations regarding good governance contained in this Good Governance Code, where applicable to the Company.

Compliant

Explain

36. The Board plenary should evaluate, at least once a year, and adopt an action plan, where applicable, to correct deficiencies identified regarding:
- a) The quality and efficiency of the operation of the Board.
 - b) The operation and composition of its committees.
 - c) Diversity in terms of the composition and competencies of the Board.
 - d) The performance of the Chairman of the Board and the CEO of the Company.
 - e) The performance and contribution made by each Director, paying special attention to those Directors who are responsible for the various Board committees.

In order to carry out the evaluation of the different committees, the Board will begin with the reports that those committees submit to it, and for the evaluation of the Board itself, it shall depend on the report submitted to it by the Appointments Committee.

Every three years, the Board will be assisted in the performance of its evaluation by an external consultant, whose independence shall be verified by the Appointments Committee.

The business relationships that the consultant or any company in the group has with the Company, or any company in the group, should be disclosed in the Annual Corporate Governance Report.

The process and areas evaluated shall be described in more detail in the Annual Corporate Governance Report.

Compliant Partially compliant Explain

37. When there is an Executive Committee, the structure of the participation of the different categories of Directors should be similar to that of the Board of Directors and the Secretary of the Board should also serve as the Secretary of the Executive Committee.

Compliant Partially compliant Explain Not applicable

38. The Board should always be aware of the matters discussed and the decisions adopted by the Executive Committee, and all of the members of the Board should receive copies of the minutes of the meetings of the Executive Committee.

Compliant Partially compliant Explain Not applicable

39. The members of the Audit Committee and in particular, its Chairman, should be appointed taking into account their knowledge and experience in terms of accounting, audit and risk management, and the majority of the members should be Independent Directors.

Compliant Partially compliant Explain

40. The Company should have a unit that assumes the functions of internal audit, under the supervision of the Audit Committee, to ensure the proper functioning of the information and internal control systems. Such a unit should functionally report to the non-executive Chairman of the Board or to the Audit Committee.

Compliant Partially compliant Explain

41. The head of the unit who assumes the internal audit function should present his annual work plan to the Audit Committee, and report directly about any incidents arising during its implementation, as well as submit an activity report at the end of each year.

Compliant Partially compliant Explain Not applicable

42. In addition to the functions established by law, the following functions correspond to the Audit Committee:

1. In relation with the information and control systems:

- a) Supervise the preparation process and the completeness of the financial information relating to the Company and, where applicable, to the group, reviewing compliance with regulatory requirements, the appropriate delimitation of the consolidation perimeter and the correct application of accounting criteria.
- b) Ensure the independence of the unit that assumes the internal audit function; propose the selection, appointment, re-election and removal of the head of the internal audit services; propose the budget for this service; approve the direction and work plans, ensuring that its activity is focused primarily towards the most significant risks facing the Company; receive periodic information about its activities; and verify that senior management takes into account the conclusions and recommendations of its reports.
- c) Establish and supervise a mechanism that allows the employees to report, in a confidential way and, where possible and if appropriate, anonymously, any irregularities of potential importance, especially of a financial and accounting nature, that they identify in their positions in the Company.

2. In relation with the external auditor:

- a) In the event that the external auditor resigns, examine the circumstances that have given rise to his resignation.
- b) Ensure that the remuneration received by the external auditor for his work does not compromise his quality or his independence.
- c) Supervise that the Company notifies the CNMV of the change of auditor as a significant event, and that its report is accompanied by a declaration regarding the potential existence of disagreements with the outgoing auditor and, if they exist, their contents.
- d) Ensure that the external auditor holds an annual meeting with the full Board of Directors to inform them about the work performed and about the evolution of the accounting environment and the risks facing the Company.
- e) Ensure that the Company and the external auditor adhere to governing legislation regarding the provision of services other than those of an audit nature, the limits in terms of the concentration of the auditor's business and, in general, the other rules relating to the independence of auditors.

Compliant Partially compliant Explain Not applicable

43. The Audit Committee should be able to call upon any employee or manager of the Company, and even request that they appear without the presence of any other executive.

Compliant Partially compliant Explain

44. The Audit Committee should be informed about operations of a structural change and corporate nature that the Company plans to undertake, for analysis and reporting to the Board of Directors regarding the economic conditions and the accounting impact and, in particular and where applicable, about the proposed exchange ratio.

Compliant Partially compliant Explain Not applicable

45. The control and risk management policy should identify at least:

- a) The different types of risk, financial and non-financial (amongst others, operating, technological, legal, social, environmental, political and reputational risks) that the Company faces, including any contingent liabilities and other offbalances heetrisks within the financial or economic risks.
- b) The level of risk that the Company considers acceptable.
- c) The measures established to mitigate the impact of the risks identified, in the event that they ended up materialising.
- d) The information and internal control systems that will be used to control and manage the aforementioned risks, including any contingent liabilities or off balance sheet risks.

Compliant Partially compliant Explain

46. Under the direct supervision of the Audit Committee or, where applicable, a specialist Board Committee, an internal control and risk management function should exist, exercised by a unit or internal department of the Company that is expressly attributed the following functions:

- a) Ensure the proper functioning of the control and risk management systems and, in particular, that all of the important risks that affect the Company are identified, managed and quantified appropriately.
- b) Actively participate in the preparation of the risk strategy and in important decisions regarding its management.
- c) Ensure that the control and risk management systems adequately mitigate the risks within the framework of the policy defined by the Board.

Compliant Partially compliant Explain

47. The members of the Appointments and Remuneration Committee - or of the Appointments Committee and the Remuneration Committee, if they are separate groups - should be responsible for ensuring that they have the knowledge, skills and experience required for the duties that they have been called upon to perform, and the majority of those members should be Independent Directors.

Compliant Partially compliant Explain

48. Companies with a high level of capitalisations should have two separate committees for Appointments and Remuneration.

Compliant Partially compliant Explain

49. The Appointments Committee should consult with the Chairman of the Board and the CEO of the Company, especially when dealing with matters relating to the Executive Directors.

And any Director should be able to request that the Appointments Committee take into consideration potential candidates to fill any Director vacancies, if they are suitable in his opinion.

Compliant Partially compliant Explain

50. The Remuneration Committee should exercise its functions independently and, as well as the functions attributed to it by law, the following functions correspond to it:

- a) Propose the basic conditions to the Board for the senior management contracts.
- b) Check compliance with the remuneration policy established by the Company.
- c) Periodically review the remuneration policy applied to the Directors and senior management, including any remuneration systems involving shares and their application, as well as ensuring that individual remuneration is proportionate to the amounts paid to the other Directors and senior managers of the Company.
- d) Ensure that any potential conflicts of interest do not harm the independence of the external advice rendered to the Committee.
- e) Verify the information about Director and senior manger remuneration contained in the different corporate documents, including the annual report about Director remuneration.

Compliant Partially compliant Explain

51. The Remuneration Committee should consult the Chairman and CEO of the Company, especially when dealing with matters relating to Executive Directors and senior management.

Compliant Partially compliant Explain

52. The rules governing the composition and operation of the supervision and control committees should feature in the Rules of the Board and are consistent with those legally binding rules that apply to the committee, in accordance with the previous recommendations, including:

- a) It should comprise exclusively Non-Executive Directors, with a majority of Independent Directors.
- b) Its Chairmen should be Independent Directors.

- c) The Board should appoint the members of these Committees, taking into account the knowledge, skills and experience of the Directors and the duties of each committee; it should deliberate over their proposals and reports; and it should be accountable for their activity and respond to the work performed, in the first full Board meeting after their respective meetings.
- d) The Committees should be able to engage external advisors when they consider it necessary for the performance of their functions.
- e) Minutes should be kept of all meetings, which should then be made available to all of the Directors.

Compliant Partially compliant Explain Not applicable

53. The job to supervise compliance with the rules of corporate governance, the rules of the internal codes of conduct and the rules pertaining to the corporate social responsibility policy should be attributed to one or shared amongst several Board Committees, which may be the Audit Committee, the Appointments Committee, the Corporate Social Responsibility Committee, if one exists, or a specialist committee that the Board of Directors, exercising its powers of self-organisation, decides to create for this purpose, to which the following minimum functions will be specifically attributed:

- a) Supervision of compliance with internal codes of conduct and the Company's corporate governance rules.
- b) Supervision of the communication strategy and of the relationship with shareholders and investors, including small and medium-sized shareholders.
- c) The periodic evaluation of the adequacy of the Company's corporate governance system, with the aim of enabling it to fulfil its mission to promote the corporate interest and taking into account, as appropriate, the legitimate interests of the other stakeholders.
- d) Review of the Company's corporate responsibility policy, ensuring that it is focused on value creation.
- e) Monitoring the strategy and corporate social responsibility practices and evaluating the degree of compliance.
- f) Supervising and evaluating the processes relating to different stakeholder groups.
- g) Evaluation of everything relating to the Company's non-financial risks, including any operating, technological, legal, social, environmental, political and reputational risks.
- h) Coordination of the process for reporting about non-financial information and diversity, in accordance with applicable legislation and international standards of reference.

Compliant Partially compliant Explain

54. The corporate social responsibility policy should include details of the principles or commitments that the Company assumes voluntarily in its relationship with the different stakeholder groups and it should identify, at least:

- a) The aim of the corporate social responsibility policy and the

- development of support tools.
- b) The corporate strategy relating to sustainability, the environment and social questions.
 - c) The specific practices in questions relating to: shareholders, employees, clients, suppliers, social questions, the environment, diversity, fiscal responsibility, respect for human rights and prevention of illegal behaviour.
 - d) The methods or systems used to monitor the results of the application of the specific practices described in the previous paragraph, the associated risks and their management.
 - e) The mechanisms for monitoring non-financial risk, ethics and business conduct.
 - f) The channels of communication, participation and dialogue with stakeholders.
 - g) Responsible communication practices that prevent the manipulation of information and protect the integrity and honour of the Company.

Compliant Partially compliant Explain

55. The Company should report, in a separate document or in its management report, about matters relating to corporate social responsibility, using one of the internationally accepted methodologies established for that purpose.

Compliant Partially compliant Explain

Being a holding company do not apply, but yes to your Group it is included in the consolidated annual accounts.

56. The Directors' remuneration should be sufficient to attract and retain Directors of the desired profile and to remunerate the dedication, qualification and level of responsibility required by the role, but not so high as to compromise the independence of judgement of the Non-Executive Directors.

Compliant Explain

57. The Executive Directors' variable remuneration that is linked to the performance of the Company and individual performance should be limited, as should the remuneration paid through shares or share options or instruments that depend on the share value, as well as the long-term savings plans, such as pension plans, retirement plans and other social welfare systems.

Shares may be considered as remuneration for Non-Executive Directors when those Directors are obliged to hold those shares until the end of their term in office. This shall not apply to the shares that Directors need to transfer, where applicable, to meet the costs related with their acquisition.

Compliant Partially compliant Explain

58. In the case of variable remuneration, the remuneration policy should incorporate the necessary limits and technical safeguards to ensure that such remuneration relates to the professional performance of its beneficiaries and does not only depend on the general evolution of the markets or the Company's sector or other similar circumstances.

And, in particular, the variable components of the remuneration should:

- a) Be linked to the performance criteria that are determined in advance and are measurable, and that those criteria reflect the risk assumed to obtain a result.**
- b) Promote the sustainability of the Company and include non-financial criteria that are appropriate for the creation of value over the long-term, such as compliance with the Company's rules and internal procedures and its policies for the control and management of risks.**
- c) Are configured on the basis of a balance between fulfilling the short-term, medium-term and long-term objectives, which allow the remuneration of continued performance over a sufficiently long period of time to appreciate the contribution to the sustainable creation of value, in such a way that the measurement elements of that performance do not revolve solely around one- off, occasional or extraordinary events.**

Compliant Partially compliant Explain Not applicable

59. The payment of a significant proportion of the variable components of remuneration should be deferred for a minimum period of time that is sufficient to enable checks to be performed to verify that the performance conditions established previously have been met.

Compliant Partially compliant Explain Not applicable

60. The remuneration relating to the results of the Company should take into account any potential qualifications that appear in the external auditor's report and reduce those results.

Compliant Partially compliant Explain Not applicable

61. A significant percentage of the variable remuneration paid to the Executive Directors should be linked to the delivery of shares or financial instruments linked to the share value.

Compliant Partially compliant Explain Not applicable

62. Once the corresponding shares or share options or rights over shares have been allocated to the remuneration systems, the Directors may not transfer ownership of a number of shares equivalent to twice their fixed annual remuneration, nor may they exercise the options or rights until a period of, at least, three years has elapsed since their allocation.

This shall not apply to shares that Directors need to transfer, where applicable, to meet the costs relating to their acquisition.

Compliant Partially compliant Explain Not applicable

63. Contractual agreements should include a clause that allows the Company to demand the return of the variable components of the remuneration when the payment has not reflected the performance conditions or when it has been paid on the basis of data whose accuracy is subsequently discredited.

Compliant Partially compliant Explain Not applicable

64. Payments for contract terminations should not exceed an established amount equivalent to two years of total annual remuneration, nor should payments be made until the Company has been able to check that the Director has complied with the performance criteria previously established.
